

GUIDELINES FOR APPLICANTS (April 2018)
to *The Double-Degree Doctoral Program*
at the Graduate School of Natural Science and Technology
Kanazawa University
JAPAN

Based on the agreement with Institut Teknologi Bandung, Republic of Indonesia, a Special Selection for the Double-Degree Doctoral Program will be performed.

I. Departmental Division

Applicants will be accepted into the Division of Mathematical and Physical Sciences (*).

(* As for the staff in charge of the Double Degree Program, see Appendix.

II. Enrollment

In general, 5 students will be accepted.

III. Qualification

Applicants applying to the Double-Degree Doctoral Program of Kanazawa University must satisfy the following requirements:

(1) Have obtained a Master's degree from an accredited university, or will have obtained such a degree by March 31, 2018.

AND

(2) Will have or have enrolled in the Doctoral Program at the Faculty of Mathematics and Natural Science, Institut Teknologi Bandung by April 1, 2018 or obtains the necessary permission from Kanazawa University.

IV. Application Procedure

1. Documents

(1) Application form and Annex, both with Photographs (*)

Documents must be written in English. Use the format supplied. Five identical passport style color photographs (3x4 cm, recently taken, full face, and printed with the applicant's name on the back) should be submitted. Three photographs should be pasted on the specified places of the application form and Annex. An envelope including two photographs should be clipped to the CHECKLIST.

(2) Certificate of Graduation of Master's Course (*)

A certificate verifying the authenticity of the Master's degree written in English/Japanese, or a certified letter written in English/Japanese stating the expectation of graduation.

(3) Official Transcripts (*)

Academic transcripts written in English/Japanese from the Master's course.

(4) Master's Thesis

(i) For those who have already obtained a Master's degree, attach a copy of the Master's thesis, written in English/Japanese, or an abstract of the corresponding research (A4 within 5 pages, free format) written in English/Japanese.

(ii) For those who are expected to complete their Master's degree by the appointed time, attach a report of the research progress written in English/Japanese (include the title of the Master's thesis and an

abstract of the research progress, A4 within 3 pages, free format).
(iii) Reprint(s) of published paper(s) or reference(s) written in English/Japanese can be attached.

(5) **Abstract of Oral Presentation**

Include an abstract for oral presentation, written in English/Japanese (A4 within 1 page, free format). This is not needed for those who are expected to graduate from the Master's course of the Division of Mathematical and Physical Sciences, Kanazawa University.

(6) **Agreement of Supervisor (*)**

Agreement of the prospected supervisor (A4 within 1 page, free format). This is not needed for those who are expected to graduate from the Master's course of the Division of Mathematical and Physical Sciences, Kanazawa University

(7) **Certificate of Enrollment (*)**

A certified letter written in English from Institut Teknologi Bandung stating that the applicant will have or has enrolled in the Doctoral Program by April 1, 2018 and indicating the expected graduation date.

OR

The equivalent document specified by Kanazawa University.

(8) **Pledge**

Applicants who are enrolled in the Double-Degree Master's program between Kanazawa University and Institut Teknologi Bandung and who will only complete the Master's course of Kanazawa University by March 31, 2018 are required to submit a pledge (A4 within 1 page, free format) stating that they will decline the enrollment of the Double-Degree Doctoral program in the case that they find it impossible to complete the Master's course of Institut Teknologi Bandung by the specified deadline.

(9) **Certificate of Health (*)**

Use the format supplied. Contents will not impact the selection process.

(*) Photocopies of the original documents will not be accepted.

2. Application Period and Location

Application Period:	August 28 – September 1, 2017
Location:	Liaison office of Kanazawa University at Institut Teknologi Bandung

3. Examination

Selection will be based on the results of an oral examination, as well as on the academic transcripts. (Those who are expected to graduate from the Master's course of the Division of Mathematical and Physical Sciences, Kanazawa University are selected by means a special examination.)

Date:	September 19 – September 25, 2017 (The oral examination will be conducted on the day designated by Kanazawa University from the above schedule.)
Location:	Liaison office of Kanazawa University at Institut Teknologi Bandung

The oral examination includes an oral presentation (approximately 20 minutes) and an interview concerning the contents of the Master's thesis.

The oral examination will be performed in English and may be performed using a telecommunication system.

4. Announcement of Results

Date: November 10, 2017
Location: **Liaison office of Kanazawa University
at Institut Teknologi Bandung**

V. Notes

(1) Studentship is based upon the agreement between Institut Teknologi Bandung and Kanazawa University.

(2) Applications will not be accepted if any of the documents are incomplete, incorrect, or not supported by evidence, or if they are not received by the specified deadline. Once submitted, documents cannot be modified and will not be returned.

(3) If any information of the documents is later found to be false, admission can be canceled at any time after enrollment.

(4) Personal information submitted here will only be used for the admission process and the Double-Degree Doctoral Program.

(5) Applicants are expected to learn and understand the geography, climate, customs and traditions of Japan, as well as the rules of Kanazawa University. Also, although the thesis work can be carried out in English, it is recommended to get accustomed to the Japanese language for the essentials of daily life.

VI. Information

For further information, please contact the below via e-mail, or airmail:

Admission Affairs Section
Science and Engineering Administration Department
Kanazawa University
Kakuma-machi, Kanazawa 920-1192, Japan
E-mail: s-nyusi@adm.kanazawa-u.ac.jp (please include "[DDP]" in the subject header)

Appendix

Staff in charge of the Double Degree Program and their Research Fields

Chairman: Professor Masato KIMURA (e-mail: mkimura@se.kanazawa-u.ac.jp)

Computational Mathematics

Professor Masato KIMURA

Our research fields are numerical simulation and mathematical analysis of partial differential equations related to mathematical modeling of several phenomena, such as moving boundary problems, pattern dynamics, elasticity and fracture mechanics, particle simulation of fluid.

Professor Seiro OMATA,

Our research concerns theoretical examination of partial differential equations describing superconductivity, motion of droplets, collision of objects, fracture mechanics, tsunami, crystal growth and other physical phenomena. We develop and teach techniques for modeling and simulation of various phenomena related to nature, biology and society. We also provide guidance and research on mathematical finance.

Associate Professor Osamu OGURISU

Our research concerns mathematical phenomena on (discrete) quantum mechanical models (including infinite graphs) using functional analysis and operator theoretical methods.

Associate Professor Katsuyoshi OHARA

We study and develop computer algebra systems related to special functions. Our research contains theory of Groebner bases for non-commutative rings, hypergeometric functions with multivariables, systems of holonomic differential equations and symbolic computations. We also use numerical computations for ordinary differential equations.

Professor Manabu OURA

My research field is algebraic combinatorics. Keywords should be association scheme, coding theory, invariant theory, modular form.

Associate Professor Hirofumi NOTSU

My research interests are in the area of numerical analysis of partial differential equations arising especially in fluid dynamics. I am working on development and analysis of finite element schemes and their application to practical problems, which are important in scientific computing.

Computational Experimentation

Professor Mineo SAITO, Associate Professor Fumiyuki ISHII

New materials are designed by using parallel computers and supercomputers. We develop methods for simulation based on solid state physics and study electronic structures of metals, semiconductors, carbon nanomaterials, and magnets. We also study molecules and clusters including interstellar ones.

Professor Tatsuki ODA

Computational research in solid state physics (bulk properties, surface properties, and nanostructure properties), development of first-principles molecular dynamics, and basic research for spintronics applications in computational science (Rashba effect, electric field control of magnetic anisotropy, etc.).

Professor Masahide SATO

By carrying out computational simulations and stability analysis, we study morphology of crystals, instabilities of steps on crystals, step bunching and step wandering.

Professor Hidemi NAGAO

Simulation of quantum computers. Structure and dynamics of the biological system (protein, lipid bilayer) by molecular dynamic simulations. Development of the coarse grained model of soft matter

(polymer, membrane) for multi-scale simulation.

Professor Shinichi MIURA

Microscopic properties of condensed matter systems ranging from superfluids to hydrated proteins are studied with extensive use of statistical mechanics, quantum mechanics and advanced molecular simulation techniques.

Please attach this checklist on top of your application documents

CHECKLIST
for Double-Degree Doctoral Program Application Documents
KANAZAWA UNIVERSITY

Application Period: August 28 – September 1, 2017

Name in English: _____

Please mark ✓ in the following boxes of the items you enclosed. All documents must be written in English/Japanese. Photocopies will not be accepted (except Master's Thesis).

- Application Form (*)** **with photograph pasted on the specified place (#)**
- Annex (*)** **with 2 photographs pasted on the specified places (#)**
- 2 photographs in an envelope clipped to this CHECKLIST (#)**
- Certificate of Graduation** **in English**
- Official Transcripts** **in English**
- Master's Thesis**
- Abstract of Oral Presentation** (I will graduate from the Division of Mathematical and Physical Sciences, Kanazawa University)
- Agreement of Supervisor** (I will graduate from the Division of Mathematical and Physical Sciences, Kanazawa University)
- Certificate of Enrollment**
- Certificate of Health (*)**
- Pledge** (I am not enrolled in KU-ITB Master's DDP or have completed both courses)

For items marked with (*), use the designated forms. For forms and certificates without the (*) symbol, prepare them yourself.

(#) Five identical passport style color photographs (3x4 cm, recently taken, full face, and printed with your name on the back) should be submitted. Three photographs should be pasted on the specified places of the application form and Annex. An envelope including two photographs should be clipped to this CHECKLIST.

MISSING DOCUMENTS: Are there any missing documents? Yes No

If yes, please list the item(s) and your reason for not including the missing document(s).

Missing document and explanation: _____

Expected date of sending the above documents to Kanazawa University: (Y/M/D) _____
